Extracts from the Inspection note
of the Davaniere Town by the Sen
Surgeon & Sanitary Commissr
with the Govt of Mysore.
(Dt 4th May 1889)

All the houses are very
dark and it is absolutely necessa
that holes should be knocked i
the walls for windows wherev
practicable. Some of the leadi
merchants told me that they
recognised the necessity now
for improved Ventilation, a
said that if Government wo
provide windows, they would
guarantee payment of the
same. I think Govt should
undertake this, as if left to
them to do, it will never be don
not because they do not want
them

them, but from their inability to procure Carpenters, I would suggest that an order for 1000 windows 3 x 2 with iron bars one-third inch thick be given to the Central Jail and Nyporo Jail with orders to make them as cheap as possible

Sir,

In forwarding the enclosed (to be obliginely returned when done with) I have the honor to state that I would not sell the windows by auction. It is a regular dodge to get them cheap. The Revenue Authorities asked for them, and they should be made to take them.

I have the honor to be,

Sir,

Your most obedient servant,
